It is estimated that all of the construction will be completed by the summer of 1979. At that time, the total undercover vehicle storage capacity will be approximately 520 vehicles.

(TSR) On imagery of [ ] a separately secured possible headquarters area was under construction 1.3 nautical miles northwest of the barracks. Construction included three multistory barracks/administration buildings, which appeared to be externally complete on [ ] This area and the barracks are connected by possible cable trenches.
